Welcome back, Birders! Migrants are arriving tired and hungry! Juvenile residents are dispersing! Sometimes "teenaged" birds do not even resemble their parents making identification interesting! Occasionally, a Vagrant shows up to delight the senses and challenge your bird identification skills! To keep up with your bird lists, eBird can be downloaded from ebird.org. There is a tutorial on the website and most birders will more than happy to answer your questions.

Fall is an exciting time to birdwatch. Come join us!
